DO I NEED TO BE TESTED?

YOU DO NOT NEED TO BE TESTED FOR COVID-19

If you don’t have any symptoms, even if you have had contact with someone who has COVID-19
If you develop mild symptoms such as fever and cough and have NO risk for severe disease such as age $\geq 60$ and serious underlying medical conditions

Stay home and stay away from others.

CALL YOUR HEALTH PROVIDER

If you develop mild symptoms such as fever and cough and have risk for severe disease (age $\geq 60$, serious underlying medical conditions). Your health care provider may decide that you need to be tested and tell you where to go for testing.

Mild to Moderate Symptoms of COVID-19 include:

- Fever
- Cough
- Body Aches

Seek medical care right away if your illness is worsening (for example, if you have difficulty breathing). Before going to the doctor’s office or emergency room, call ahead and tell them your symptoms. They will tell you what to do.

If you develop emergency warning signs for COVID-19, get medical attention immediately by calling your provider or Emergency Medical Services (EMS).

Emergency Warning Signs of COVID-19 include:

- Difficulty Breathing
- Pain or Pressure in Chest
- Confusion or inability to arouse
- Bluish lips or face

*This list is not all inclusive. Please consult your medical provider for any other severe or concerning symptoms.
