3

COMMUNITY HEALTH IMPROVEMENT PLAN (CHIP)

- A community action plan that provides guidance to the Public Health, its partners, and stakeholders for improving the health of Stanislaus County
- Identifies **health equity as a guiding principle** to address differences in health outcomes
- Is informed by the findings and data from the CHA
- Can be used to prioritize existing activities and set new priorities

4

10

Stanislaus County Health Rankings 2021-2023

Health Outcomes

How long people live on average, and how much physical and mental health people experience while alive

Worsened from 34th to 36th out of 58 counties

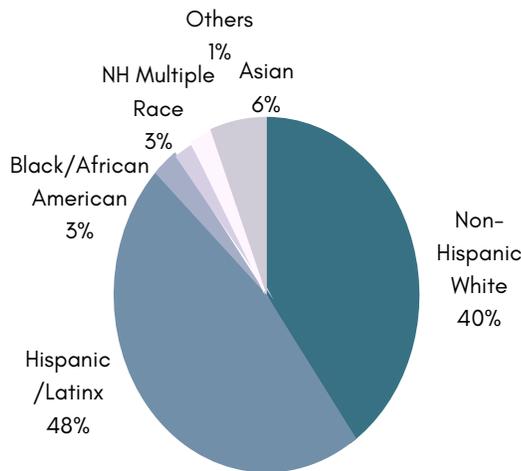

Health Factors

Things we can improve to live longer and healthier lives. Indicators of future health of communities.

Worsened from 39th to 41st out of 58 counties

11

MAKEUP OF STANISLAUS COUNTY PEOPLE

- 20% of the population is Foreign Born
- 43% of the population speaks a language other than English at home
- 18% Have a Bachelor's degree or higher
- Median household income was \$62,873

2020 National Overall SVI Score:
0.8498

Possible scores range from 0 (lowest vulnerability) to 1 (highest vulnerability).

A score of **0.8498** indicates a **high** level of vulnerability.

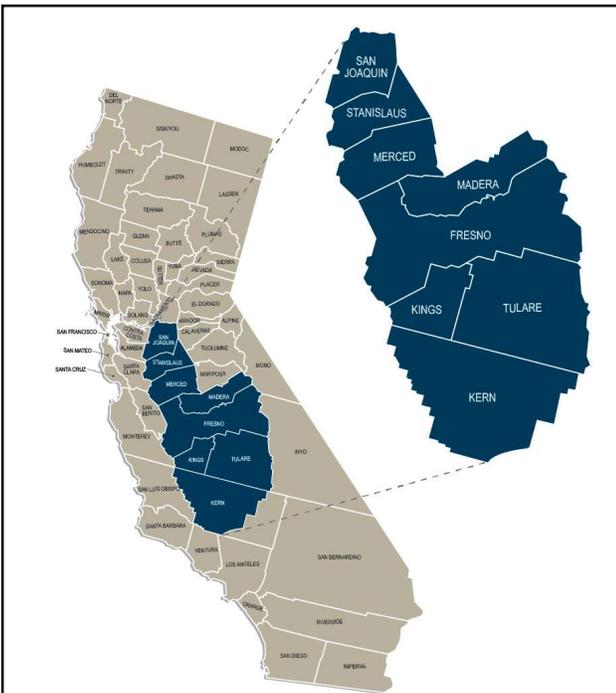

12

ASSETS IN THE VALLEY PLACES

- ❖ Agriculture
(Almond, Dairy, Poultry, etc.)
- ❖ Several of the largest oil fields
(Kern, Kings, Tulare county)
- ❖ Diversity

13

CHALLENGES IN THE VALLEY

- Hot, dry summers, foggy winters
- High levels of pollution in air, water & land
- Low educational attainment
- Widespread poverty
- Diverse population
- Significant health needs
- Limited public health and healthcare resources

14

HOW DOES THIS IMPACT OUR RESIDENTS

- SJV residents have shorter lifespans than residents in other parts of CA
- Quality of life and access to basic needs, resources, and opportunities are lower
- Shows the need to address root causes and make systematic changes

Economic Stability

Neighborhood & Built Environment

Health & Health Care

Education

Social & Community Context

15

CHIP FOCUS AREAS

Chronic Disease

- All people will have the opportunity to live a long and healthy life

Communicable Disease

- A community with adequate prevention against communicable disease and equitable access to treatment

Housing & Homelessness

- All people will have a safe and affordable place to live

Tobacco & Substance Use

- A community free from the harm of tobacco and substance use

16

HOW ARE WE DOING? CHRONIC DISEASE

43.7% of 5th graders
overweight/ obese

33% of adults
overweight/ obese

11% of adults living
with diabetes

Compared to 37.2% in 2021 Compared to 14.5% in 2021

Result Statement: All people will have the opportunity to live a long and healthy life

17

HOW ARE WE DOING? COMMUNICABLE DISEASE

| | 2019 (per 100,000) | 2020 (per 100,000) | Rank (out of 58) |
|--|--------------------------|--------------------------|------------------------|
| Gonorrhea | 176.3 | 226.8 | 9 |
| Chlamydia | 585.2 | 454.9 | 14 |
| Syphilis (Primary and Secondary) | 26.3 | 26.8 | 9 |
| Syphilis (Early non- primary, non- secondary) | 16.2 | 14.0 | 16 |
| Syphilis (Late/Unknown Syphilis) | 32.7 | 31.1 | 13 |
| Congenital Syphilis | 164.5 | 241.1 | 11 |

Rates of Gonorrhea
have increased

Congenital
syphilis increased
by 38% from 2019
to 2020

COVID cases are
decreasing, but
only 59% of the
eligible population
is vaccinated

Result Statement: A community with adequate protection against communicable disease and equitable access to treatment

18

23

Complye

- ▶ The mechanism for collecting the data for the performance management system
- ▶ Complye allows us to easily collect data from program participants, analyze performance and manage data
- ▶ An emailed survey link will be sent to partners that are willing to contribute data
- ▶ Communication with the survey is dependent on the performance measure frequency (Quarterly or Annually)
- ▶ Data contributed (qualitative and quantitative) via the Complye-generated survey link will feed into the scorecards so the action workgroup can monitor and track progress

CHIP FOCUS AREAS

Chronic Disease

- All people will have the opportunity to live a long and healthy life

Communicable Disease

- A community with adequate prevention against communicable disease and equitable access to treatment

Housing & Homelessness

- All people will have a safe and affordable place to live

Tobacco & Substance Use

- A community free from the harm of tobacco and substance use

27

Chronic Disease Action Plan

- ▶ **Strategy 1:** Improve the coordination among chronic disease prevention partners
- ▶ **Strategy 2:** Increase access to healthy food and opportunities for physical activity
- ▶ **Strategy 3:** Promote health equity

28

Communicable Disease Action Plan

- ▶ **Strategy 1:** Increase education and awareness of sexual health curriculum in Stanislaus County
- ▶ **Strategy 2:** Improve utilization of sexual health services by increasing accessibility and availability of services
- ▶ **Strategy 3:** Strengthen community partnerships to align existing prevention efforts and design new targeted interventions
- ▶ **Strategy 4:** Increase the proportion of community members protected by vaccinations and COVID-19 treatments
- ▶ **Strategy 5:** Use surveillance data to monitor COVID-19 cases and outbreaks

29

Housing & Homelessness Action Plan

- ▶ **Strategy 1:** Accurately identify the homeless population and align existing housing and homeless outreach plans and strategies across Stanislaus County
- ▶ **Strategy 2:** Address early life factors that place youth at risk of homelessness in adulthood; as well as engage local systems in a shared approach to prevent youth from becoming homeless
- ▶ **Strategy 3:** Expand and provide housing services and coordinated approaches to increase housing stability and prevent a return to homelessness

30

Tobacco & Substance Use Action Plan

- ▶ **Strategy 1:** Adoption of policies across multiple jurisdictions and unincorporated areas limiting access and exposure to nicotine, THC, and alcohol products
- ▶ **Strategy 2:** Completion of a fully incorporated and widely shared Communitywide Asset and Gap Analysis for cessation, addiction, substance use, and mental health services
- ▶ **Strategy 3:** Expand implementation of mental well-being and substance use prevention programs in the community, with specific attention to schools and youth-based programs
