Technical Errors In “My Turn” Application Result in Incorrect Appointments

Stanislaus County - Stanislaus County Public Health was notified that appointments were made available in error through California’s “My Turn” application for the Oakdale COVID-19 Vaccine Clinic. Due to this technical issue, some residents were wrongly able to make an appointment for the clinic on February 12th, 2021. Residents who were able to make an appointment will be notified of the cancellations.

Public Health is currently not accepting appointments for vaccinations via My Turn. Appointments that were made at the vaccine clinic in Oakdale will not be honored. The vaccine clinic at Gladys Lemmons Senior Center in Oakdale will remain open on Friday, February 12th, 2021 on a “first come, first serve” basis. The clinic will operate from 9.00 am to 5.00 pm or until they run out of doses. Vaccines are only available to eligible Stanislaus County residents and those who work in Stanislaus County.

Stanislaus County continues to work with the State to have My Turn available to County residents and will announce once the application is ready to be used.
